I. INTRODUCCION

II. DESARROLLO MATEMATICO

Las siguientes ecuaciones definen al sistema electromecanico, obtenidas de las indicaciones de la tarea.

$$T(t) = K_T I_a(t)$$

$$E_m(t) = K_b \omega(t)$$

$$V_a(t) = R_a I_a(t) + L_a \frac{d I_a(t)}{d t} + e_m(t)$$

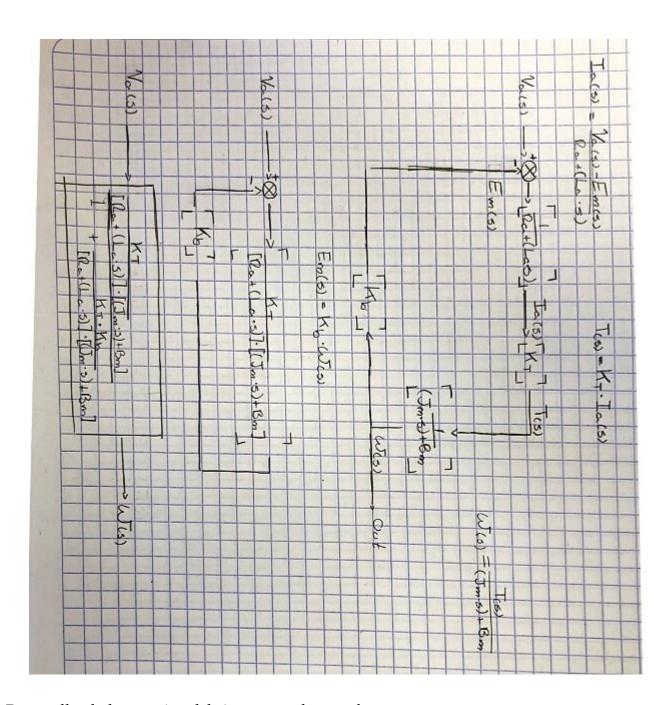

$$T(s) = K_T I_a(s)$$

$$E_m(s) = K_b W(s)$$

$$V_a(s) = R_a I_a(s) + L_a s I_a(s) + E_m(s)$$

$$T(t) = J_m \frac{d \omega(t)}{d t} + B_m \omega(t)$$

$$T(s) = J_m s W(s) + B_m W(s)$$

Desarrollando la ecuacion del sistema resultante, obtenemos:

$$\frac{K_t}{\{\ [R_a+(L_a*s)]*[(J_m*s)+B_m]\ \}+K_tK_b}$$
